RAIKHLIN AIRCRAFT ENGINE DEVELOPMENTS

Deputy Quality Manager (m/f/d)

Raikhlin Aircraft Engine Developments GmbH is a center for the design, research, development, and production of high-performance engines and their components. The company specializes in meeting the most demanding requirements of the aviation, defense, and automotive industries. Development is conducted in accordance with CS-E and CS-23 as part of an EASA Part 21 design organization.

We are seeking a Deputy Quality Manager (m/f/d) for our company to start as soon as possible.

01

Responsibilities:

- Supporting the planning, maintaining, and further developing the integrated management system in accordance with EASA Part 21-G and 21-J
- Developing process flows, work instructions, and forms in collaboration with process owners.
- Assisting in maintaining the integrated management system within the system structure.
- Participation in planning, preparation, execution, and follow-up of internal and external audits.
- Tracking and documentation of corrective actions resulting from audits.
- Complaint handling (including root cause analysis and management of corrective actions) in collaboration with the QM.
- Preparation of quality statistics.
- Preparation and redacting of specifications (including customer questionnaires and supplier approvals).
- Monthly determination of process metrics.
- Supporting the preparation of the management review with senior management.
- Planning and conducting training sessions.

02

Qualification:

- Holds a degree in Mechanical Engineering or similar
- Knowledge of Part-21/145/ISO-9100/Part-IS/HF/ICAO
- Proficiency in software (Office, IQS-CAQ, 3DExperience)
- Prior experience is beneficial but not a prerequisite for this role.
- Proficient in English; knowledge of German is an advantage.

03

Offer:

- The opportunity to work in a company that offers the perfect blend of internationality, down-to-earth values, professionalism, and innovation.
- A corporate culture characterized by mutual trust and recognition of achievements.
- Teamwork and open communication.
- A diverse range of responsibilities.
- Competitive compensation.

Please understand that we can only consider complete and substantive applications (submitted by email) that include a cover letter, resume, transcripts, certificates, and any additional qualifications, along with your earliest possible start date and salary expectations.
